

**ELAN Monthly Sales Report – January 2018**

ELAN Microelectronics Corp., a major touch controller leader in global NB market, announced that its consolidated net sales for January 2018 were NT\$704 million, (+35.3% YoY, 16.4% MoM), which setting a new record high for January revenue since its establishment.

**January Sales --YoY Comparison**

**Unit: NT\$Thousand**

Year	2018	2017	YoY
<b>Net Sales (Consolidated)</b>	<b>704,488</b>	<b>520,541</b>	<b>+35.3%</b>

The January sales of Touchscreen Controller, Touchpad Module, Fingerprint Sensor, Pointing stick(PST) & Microcontroller were better than last month, which show increased by 13%, 31%, 39.5%, 21.8% & 1.5% (MoM), respectively. January consolidated net sales were composed of touch applications (including Biometric applications) which accounted for 68%, and non-touch applications accounted for 32%.

ELAN officially announced to enter into the Artificial Intelligence (AI) Field and implemented this plan from the AI application including biometrics to the automotive electronics category, eventually extending the development of the AI platform to plan the long-term development prospect.

ELAN pointed out that in the next three years, the overall plan of the investment in AI development will invest more than 100 human resources, and the investment funds will account for 15% to 30% of total R&D expense. This is an important ongoing task, therefore, we can predict that this part will increase revenue year by year.
