

## ELAN Monthly Sales Report – April 2018

ELAN Microelectronics Corp., a major touch controller leader in global NB market, announced that its consolidated net sales for April 2018 were NT\$657 million, (+9% YoY, +8.7% MoM).

### April Sales --YoY Comparison

Unit: NT\$ Thousand

Year	2018	2017	YoY
Net Sales (Consolidated)	657,652	603,228	+9%

The seasonal tendency for sales of consumer electronics began to a steadily rising uptrend from April, the net sales of overall product line for 2Q18 is expected to be higher than 1Q18; touch-pad was an increase of 13.4% MoM, PST was a growth of 30.6% MoM. The consolidated net sales for April 2018 were composed of touch applications, including biometric applications, accounted for 66%, and non-touch applications accounted for 34%.

ELAN officially announced to enter into the Artificial Intelligence (AI) Field and implemented this plan from the AI application including biometrics to the automotive electronics category, eventually extending the development of the AI platform to plan the long-term development prospect.

ELAN pointed out that in the next three years, the overall plan of the investment in AI development will invest more than 100 human resources, and the investment funds will account for 15% to 30% of total R&D expense. This is an important ongoing task; therefore, we can predict that this part will increase revenue year by year.
