

ELAN Monthly Sales Report – May 2018

ELAN Microelectronics Corp., a major touch controller leader in global NB market, announced that its consolidated net sales for May 2018 were NT\$718 million, (+18.4% YoY, +9.3% MoM).

April Sales --YoY Comparison

Unit: NT\$ Thousand

Year	2018	2017	YoY
Net Sales (Consolidated)	718,716	606,702	+18.4%

The net sales of total product lines for May 2018 was higher than April, touch-pad and fingerprint recognition rose 19.11% MoM and 19.34% MoM, respectively; MCU was a growth of 9.4% MoM, IC for touch-screen was an increase of 3.2% MoM, and PST was higher from last month. The consolidated net sales for May 2018 were composed of touch applications, including biometric applications, accounted for 69.5%, and non-touch applications accounted for 30.5%.

ELAN officially announced to enter into the Artificial Intelligence (AI) Field and implemented this plan from the AI application including biometrics to the automotive electronics category, eventually extending the development of the AI platform to plan the long-term development prospect.

ELAN pointed out that in the next three years, the overall plan of the investment in AI development will invest more than 100 human resources, and the investment funds will account for 15% to 30% of total R&D expense. This is an important ongoing task; therefore, we can predict that this part will increase revenue year by year.
