

ELAN Monthly Sales Report – July 2018

ELAN Microelectronics Corp., a major touch controller leader in global NB market, announced that its consolidated net sales for July 2018 were NT\$789 million, (+17.9% YoY, +8.4% MoM).

July Sales --YoY Comparison

Unit: NT\$ Thousand

Year	2018	2017	YoY
Net Sales (Consolidated)	789,013	669,047	+17.9%

The consolidated net sales for July 2018 were composed of touch applications, including biometric applications, accounted for 71.5%, and non-touch applications accounted for 28.5%. The robust sales result of fingerprint recognition sector increased +33.6% MoM, the sales of touch controller IC for touch-screen showed a good performance with a rise of 10.4% sequential, the sales of touch-pad module was +10% MoM, and PST was a growth of 6.5% from last month.

ELAN officially announced to enter into the Artificial Intelligence (AI) Field and implemented this plan from the AI application including biometrics to the automotive electronics category, eventually extending the development of the AI platform to plan the long-term development prospect.

ELAN pointed out that in the next three years, the overall plan of the investment in AI development will invest more than 100 human resources, and the investment funds will account for 15% to 30% of total R&D expense. This is an important ongoing task; therefore, we can predict that this part will increase revenue year by year.
