

**ELAN Monthly Sales Report – August 2018**

ELAN Microelectronics Corp., a major touch controller leader in global NB market, announced that its consolidated net sales for August 2018 were NT\$820 million, (+10.7% YoY, +3.9% MoM).

**August Sales --YoY Comparison**

**Unit: NT\$ Thousand**

Year	2018	2017	YoY
<b>Net Sales (Consolidated)</b>	<b>819,654</b>	<b>740,424</b>	<b>+10.7</b>

The consolidated net sales for August 2018 were composed of touch applications, including biometric applications, accounted for 68%, and non-touch applications accounted for 32%. The sales of touch controller IC for touch-screen grows steadily, +3.9% MoM; additionally, MCU was a rise of 3.6% and PST was a growth of 18.6% from last month.

ELAN officially announced to enter into the Artificial Intelligence (AI) Field and implemented this plan from the AI application including biometrics to the automotive electronics category, eventually extending the development of the AI platform to plan the long-term development prospect.

ELAN pointed out that in the next three years, the overall plan of the investment in AI development will invest more than 100 human resources, and the investment funds will account for 15% to 30% of total R&D expense. This is an important ongoing task; therefore, we can predict that this part will increase revenue year by year.
